Reddy Toosevelt will feel less "pomperious and "usurpious" after the 8th of November.

We decline to print the poem in which the poet tries to rhyme "Irish potato" with "sharp machete."

It is said that there were no end of Smiths in the Republican National convention. We guess those from the South were Black Smiths.

The Republican national chairman will refuse to turn his kidnapped campaign fund loose until the spellbinders promise him Roosevelt as a ransom.

Governor LaFollette was not allowed to play his role at the Republican National convention because he insisted on being serious, with a farce-comedy on the boards.

Says the Jacksonville *Times-Union*: "An unusually large number of young men in Florida are making their mark in politics this year." We North Carolina youngsters will also come to the scratch in this campaign.

It is reported that a Kentuckian killed a snake with a jug. It is not stated whether the jug was full or not, but the presumption is that it was empty, for no true Kentuckian would let a mere jug have the advantage of him.

If the National Democratic convention will nominate the right sort of a man and adopt a platform that is free from vagaries, the Democratic ship will have the Republican ship in search of a fog before the campaign is over.

The Democratic State convention assembles at Greensboro to-day. The action of the Democrats in the various counties shows that their choice is between two men. The other candidates ought to see that they are not wanted and should drop out of the race so the people can get their own choice.

The objection which the old stagers had to Cortelyou for Republican National chairman was that he was too clean for the place. When they found out that Cortelyou got up campaign statistics and sent them all over the country at the expense of the government, they found out that he had qualifications to suit them.

J. Presson, and Mr. William Theodore McGallaird, of Connelly's Springs, N. C. The service was according to the beautiful rites of the Episcopal church and was said by Rev. A. W. Seabrease, of St. Paul's parish. Only a few intimate friends of the bride and groom were present to witness the happy nuptial event. Mr. and Mrs. McGallaird left on the afternoon Seaboard Air Line train for their future home at Connelly's Springs.

FEUD AMONG NEGROES

Members of Colored Congregation at Baymead Involved in Big Church Row.

FOUR OF THEM ARRESTED.

Preliminary Trial in Justice Fowler's Court To-day—Smashed in a Door and Engaged in General Melee. Indictments for Others.

Warrants were yesterday sworn out before Justice Fowler, of this city, against eight participants in a feud which appears to exist among members of a colored church congregation at or near Baymead, in this county, seven miles from Wilmington. Four of the feudists were arrested late yesterday afternoon at their homes in the country by Constable W. B. Savage and Deputy Sheriff W. H. Cox and the prisoners were landed in jail last night. Other arrests are expected to follow to-day when the cases are called for preliminary trial in Justice Fowler's court at 4 o'clock. One or more charges and counter charges are preferred against each of the defendants already arrested and the hearing in all probability will be lengthy. While no actual violence of a serious nature has resulted from the feud, the community of negroes involved is said to be much wrought up and a number of peace warrants have been sworn out by conservative parties involved to avoid trouble of a more aggravated nature in the future.

Particulars of the difficulty and the causes leading up to the same were hard to learn yesterday from the belligerents who came to the city to indict and cross-indict. It appears that the congregation divided in sentiment upon the pastor of the church and as a result several of the female members of the flock were summoned for trial before the church council. One faction was excluded from the hearing Tuesday night, whereupon certain of those who were persona non grata in the church councils as then constituted broke through the assembly hall and a "rough house" followed, men and women participating in bringing about the chaos which followed. Finally, certain of those on trouble bent withdrew and various and sundry threats were made.

The defendants placed in jail last night were two women and two men, against whom there are charges of wilful and forcible trespass, assault and battery and peace warrants. It will require an official investigation to follow the various ramifications of the most interesting imbroglio and a large crowd will no doubt be attracted to the hearing before Justice Fowler.

AN ERA OF HOME BUILDING.

No Less Than Forty-four Structures Now in Process of Erection.

"There is a greater amount of building going on in Wilmington now than I have ever known at one time before," remarked a well known dealer in building material yesterday. He said that he had taken the trouble to count up the new buildings now in process of construction, and found that the number was no less than 44, a large majority of the number being residences. The building boom in First Ward is especially worthy of note. There is hardly a block across the railroad in which there is not some kind of building going on. Verily, it seems that Wilmington is rapidly becoming a city of home builders—an encouraging sign and one which shows that its inhabitants have an abiding confidence in the continued prosperity of their town. The seven well and conservatively conducted building and loan associations in the city are no inconsiderable factor in the promotion of this spirit of home building.

WILMINGTON LODGE, A. F. & A. M.

Officers for Ensuing Term—Installation on Evening of St. John's Day To-morrow.

Wilmington Lodge No. 319, A. F. & A. M., at its regular meeting Tuesday evening elected officers for the ensuing year as follows:

W. M.—W. B. McKoy.
S. W.—Eric Norden.
J. W.—Isaac Bear.
Secretary—Thos. F. Bagley.
Treasurer—W. G. A. Olersen.

The above, with the appointive officers and those elected by the other lodges of the city, will be installed on the evening of St. John's Day, to-morrow.

Mid-week Dance at Carolina.

The mid-week dance at Carolina Beach last night was patronized by among the first young people of the city, nearly a hundred couples participating in the pleasures of the occasion. Excellent music was furnished by the recently organized Wilmington Symphony Club. A number of young people from Southport and Fort Caswell came up to join the Wilmington party.

Rice Mill to Winery.

Mr. W. D. Wiggins, of Goldsboro, is here supervising the removal of the machinery from the old rice mill on lower Chesnut street to another plant owned by the same company at Goldsboro. The large building has been leased by Messrs. Sol. Bear & Co., and it is understood that a large winery will be established there. Messrs. Bear & Co. already occupy a part of the building as a winery.

Take the children to the Casino—25 cents round trip on trolley line for children under twelve years.—No charge for children under 5 years.

EXCURSIONISTS GALORE.

Charlotte Sunday School Party and Large Crowd from Goldsboro Here—Two To-day and Three To-morrow.

The Pritchard Memorial Baptist Sunday school excursion reached the city yesterday afternoon at 3 o'clock from Charlotte, the train consisting of eight coaches. The party numbered scarcely 500 people, though fully a thousand were expected. Passengers were taken aboard as far this way as Laurinburg. A majority of the visitors went through to the beach, though many remained in the city the guests of relatives and friends. Rev. J. Q. Adams, pastor of the congregation; Mr. V. O. Willis, chairman of the committee of arrangements, and Mr. M. L. Herman, city ticket agent of the Seaboard in Charlotte, were personally in charge of the excursion and the trip to Wilmington was without incident. The train left Charlotte at 8 o'clock yesterday morning and very good time was made. The rate for the round trip between Charlotte and Wadesboro was $3.50. To-day an excursion down the river and out to sea has been arranged for the benefit of the visitors, with stops at all points of interest along the Cape Fear. The party will return home this evening, leaving the Carolina Central station at 8 o'clock.

Hatch Bros.' excursion to the seashore arrived earlier than the Pritchard Sunday school and came from Goldsboro, bringing 400 visitors. The train consisted of six coaches and baggage car and was taken straight through to Wrightsville over the Consolidated line. The party returned home, leaving the city at 8 o'clock last night.

Two excursions will arrive to-day from Fayetteville, N. C., and Darlington and Hartsville, S. C. To-morrow threre will be three—Fussell Bros. from Mount Olive; the S. A. L excursion, from Columbia, S. C., and Schloss' excursion, from Conway. From then on during the Summer season one or more excursions is due each day from various interior points. Both railroad lines entering Wilmington are giving more attention this season to the development of their excursion business, the idea being, apparently, to run more trains, bringing smaller crowds en each, so that all may be comfortably taken care of at the beaches.

There were 310 guests at the Seashore Hotel last night, fully 150 of whom registered very soon after the arrival of the Charlotte excursion yesterday. Many of the visitors spent the evening at The Casino, enjoying the free attractions and returning for lodging to the city at night. All cars last night were crowded to their capacity. Double-headers had to be operated to avoid the congestion of travel on the returning late cars.

On account of the excursion down the river for the Charlotte visitors today, there will be no 2:45 trip of the steamer "Wilmington," but the remainder of the schedule will be observed as usual. Boat leaves this morning at 9:15.

FUNERAL OF LATE W. H. SHAW.

Services Yesterday Afternoon from Grace Church—Interment in Oakdale.

In the presence of a large assemblage of friends and sorrowing relatives, the funeral of the late William H. Shaw was conducted at 5:30 o'clock yesterday afternoon from Grace M. E. church by the pastor, Rev. N. M. Watson, assisted by the Rev. R. B. John, presiding elder of the Wilmington district. The funeral hymns were by the regular choir composed of Miss Nora Scott, Mrs. F. A. Muse, Messrs. Chas. Dushan and R. H. Grant. Among the numbers rendered with charming effect were "Good Night," "Oh, Where Shall Rest be Found," and "Abide With Me." Many expressions of regret at the passing away of a citizen so universally esteemed were heard on all sides.

The interment was in Oakdale cemetery, the following gentlemen having acted as pall-bearers: Honorary, Messrs. Marsden Bellamy and T. O. Bunting; active, Messrs. J. H. Beery, W. M. Hankins, W. B. Cooper, W. E. Perdew, A. C. Craft and E. Borden.

P. W. POU SENTENCED TO CONGRESS.

Popular Fourth District Representative Renominated With Enthusiasm.

[*Special Star Telegram.*]

RALEIGH, N. C., June 22.—The Democratic convention of the Fourth Congressional District renominated by acclamation this afternoon Edward W. Pou, for a third term in Congress. In a seconding speech by T. W. Bickett, of Louisburg, he congratulated the district on departing from the unwise precedent of frequent changes of Congressmen and gave notice that Mr. Pou was sentenced by his constituency to at least ten years at hard labor in Congress. R. N. Simms, of Wake was named as elector, and Ed. Chambers Smith, of Wake, and A. C. Zollicoffer, of Franklin, delegates to the St. Louis convention with J. A. Thomas, of Louisburg, and Judge T. B. Womack, of Wake, alternates.

Speeches by Mr. Pou and delegates gave notice that no one would be supported for the Presidential nomination who had been unfaithful to the party in the past or threatened to bolt now. Mr. Pou declared the supreme issue of this campaign to be "Roosevelt" and that with a judicious nomination by the Democrats at St. Louis Roosevelt's defeat was certain.

TITANIC 'TWILL BE.

Impressions at Greensboro Upon the Eve of North Carolina's Greatest Convention.

IT LOOKS STEDMANESQUE.

Eastern Counties Represented by Strong Delegations of Enthusiastic Men. Stedman Rally This Morning. How it Looked at Midnight.

[*Special Star Telegram.*]

GREENSBORO, N. C., June 22.—The following is considered by friends of Maj. Stedman a conservative statement of the gubernatorial outlook as it appears to-night:

They concede to Glenn a moderate lead on the first ballot, but they contend that he has little or no reserve power, and that approximately his full strength will be shown on that ballot. On the other hand, they believe that Stedman's vote will gradually increase after the first ballot and that when the expected break in the Turner and Davidson columns comes, Stedman will be nominated. The best of feeling exists between the friends of Stedman, Davidson and Turner and it seems highly probable that they will unite and secure the permanent organization of the convention. Without exception Stedman's managers feel confident of his ultimate triumph. W. H. BERNARD.

GREENSBORO, N. C., June 22.—Delegates for the Democratic State Convention are nearly all here and Greensboro is taking care of one of the biggest crowds in its history. The liveli est scenes imaginable prevail in the several headquarters, in lobbies and before fronts of hotels. State Chairman Simmons arrived this morning from Newbern and is at the Benbow. He will call the convention to order at noon to morrow in the Banner warehouse, the ceiling of which has been hidden by flags and bunting. The roof of the warehouse is cooled by an arrangement which keeps water constantly freezing over it. Fifteen thousand pounds of ice will be kept in front of the rostrum and, as before stated, numerous electric fans will be kept going all the while.

Some of the very largest delegations here are from the territory tributary to Wilmington. Cumberland is here seventy-five strong, all of them friends of Stedman or delegates instructed for him. Large delegations are here from New Hanover, Onslow, Pender, Brunswick and Columbus. Stedman's managers are more confident than ever and say they have a "sure thing" of it. They admit to-night that Glenn will have a few more votes on the first ballot than Stedman, but they predict that most likely after the first ballot, certainly after the second, Glenn's supporters will begin to leave him. The afternoon and night trains brought crowds which were largely for Stedman and which greatly strengthened the Stedman forces.

W. M. Bond, of Edenton, and Col. J. T. Morehead, of Greensboro, will second Major Stedman's nomination, which will be made by Victor S. Bryant, of Durham.

To-morrow morning at 10 o'clock in the Guilford county court house there will be a Stedman rally at which short speeches will be made by his friends. At 11 o'clock the district delegations will meet. The impression prevails now that the balloting will not commence until after matters of platform, etc., have been disposed of and that then it will be so late that the nominations will not be until Friday.

Martin county, which has been claimed as a Glenn county, will give Stedman seven and Glenn six votes. This is very reassuring to friends of Stedman.

Manager Brooks was too busy to talk to-night except to say that Stedman would be the next Governor.

Major Osborne, an ardent Stedman man, was interviewed and said, "We are certain about it. All we lack now is for the convention to meet."

It is conceded that the shrewd party workers are for Stedman and his friends claim that this fact will count tremendously in his favor.

Another argument which will be drawn as strongly to draw the wavering to the Stedman standard is that in his nomination is the only opportunity of paying a last honor to the heroes of the Confederacy. The old Confederates here are determined in his behalf. One whose brother lost his life in the war will appear before the convention as the representative of his dead soldier brother and as one speaking from the dead will urge Stedman's nomination.

GREENSBORO, N. C., June 22.—At midnight the Stedman men are jubilant. They say there is no doubt that the tide is setting strongly in Stedman's favor. One reason assigned for this is the magnificent arrangements Greensboro has made for taking care of the convention. The hearts of the delegates are warming towards Greensboro and they feel disposed to give Greensboro what she wants. Governor Aycock arrived to-night.

All the State officers are here; also Congressmen Gudger, Webb, the two Kitchins, Thomas, Small, Patterson, Pou and Senator Overman.

(By Associated Press.)

RALEIGH, N. C., June 23.—The Democratic State convention meets in Greensboro to-morrow. Judging from the views of men high in the councils of the party, instructions for Parker are not very likely, not because the delegates do not favor him for President but because instructions are contrary to precedent in the Democratic conventions of this State.

There are four men in the race for the governorship, Major C. M. Stedman, Hon. R. B. Glenn, General Theodore F. Davidson and W. D. Turner, Lieutenant Governor of the State. Glenn and Stedman are admittedly the strongest of these candidates, but it is believed by many that in the stubborn fight promised between them one of the other candidates or a dark horse may eventually be chosen.

UNLIMITED PROSPECTS FOR OUR COTTON INDUSTTY.

When there are constantly fluctuating prices for raw cotton, the manufacturers of cotton goods have a trying time in adjusting the prices or their manufacturers so they can get a profit over the price they pay for their raw supply. For that reason the past year has been one of the most extraordinary in the experience of manufacturers, but the Southern mills have generally been in a better position than the New England mill men to meet the conditions arising in the situation.

If the price of raw cotton is to remain at the high prices which have prevailed during the marketing of a large proportion of last year's crop and which keep up at a practically stiff figure yet, the prices of manufactured goods will necessarily regulate themselves along the scale of the price for raw cotton. The unsettled conditions, however, make it rather difficult to arrange the prices of manufactured goods so that there will be any approach to anything like stable prices for some time, yet the manufacturers in the South are handling the situation fairly well.

A North Carolina manufacturer writes the *Manufacturers' Record* in terms which indicate that he anticipates little trouble as to the adjustment of prices. He is an officer of an important North Carolina cotton mill, and writes as follows:

In reply to yours of May 20th, in which your correspondent asks what the price of cotton should be to enable the manufacturer to make a reasonable profit based on the present price of goods, I would say that a planter asked me yesterday what the prices of goods should be to enable the manufacturer to pay presen cotton and make a reasc on the goods; so here we planter wants goods advi the manufacturer can which will allow him a g his short crop of cotto merchant wants the pric that he can avoid asking on his goods, or in other v old prices and make his us It is useless to attempt intelligent reply to the there is such a variety c different kinds of goods supply and demand, and s of the clipping which y states, some goods pay a p present cost of cotton and s so it seems that the prot solved only on a basis of demand in both cotton which will no doubt r whole situation within a s We have just been passi what is termed "betwee when there is usually ver mand for goods, and th generally used by merchs pressing prices, but fortun not last the entire year. will sooner or later get in line with the supply, and then the adjustment will be simple.

There is a confident tone in the North Carolina manufacturer's letter, and the fact that the Southern manufactures have really been able to meet the situation with less serious results than the Northern manufacturer, shows the advantage of having the mills where the cotton is grown.

We have been deeply interested in a recent interview with Mr. R. H. Edwards, published in the New York *Commercial*. Mr. Edwards is editor of the *Manufacturer's Record* and ranks high as an authority on industrial and business conditions in the South. He is unquestionably in a position to be one of the best posted men along this line and in fact is recognized throughout the South and North as an expert. He tells the *Commercial* that "Cotton is King," and that it is his judgment that its dominion is destined to be greatly extended. It is his opinion that increased cotton growing and manufacturing will give the South imperial wealth such as neither the South or North has ever known. In taking a glimpse of the South's future in the cotton industry, Mr. Edmonds reminds us that the average cotton crop of the South is 10,500,000 bales a year, and that the South now supplies three-fourths of the cotton for the 110,000,000 spindles of the world. The South has 8,000,000 spindles, or less than one-eighth of the spindles of the world, but the number of Southern spindles has increased at a rapid rate and in his opinion will continue to do so. The South now sends 60 per cent. of its raw cotton to Europe every year, which Mr. Edmonds declares is "almost as uneconomic as it would be to ship our iron ore instead of turning it into the finished product here." In other words he impresses us with the fact that the place to manufacture the raw product is where it is produced, hence the field for the growth of the cotton manufacturing business in the South is almost limitless.

Mr. Edmonds takes the view that by the time the South builds enough mills to consume the present raw supply of 10,500,000 bales, the world's demands for cotton shall have doubled, increasing the requirements to 20,000,000 bales at least. In the utilization of 10,500,000 bales in the Southern mills, he points out that it would mean the employment of 1,000,000 operatives, the investment of $2,000,000,000 in mills and textile machinery and an annual finished product of $2,000,000,000. Mr. Edmonds concludes with this roseate view, and the prospects logically bear him out:

"These, indeed, would the South, without monopolizing the world's cotton manufacturing interests, be the dominant factor, the center of the world's cotton mill business, producing 20,000,000 bales and consuming at home in its own mills 10,000,000 bales. Both will come about in due time. The South sees before it this prize, rich beyond words to describe, creating wealth beyond anything which this section or any other section has known, and this is the prize—a prize great enough to enrich an empire, for which it has entered the race. That it will win admits of no question."

Rebuking a Duke.

An English duke of great wealth and large estates had occasion one day to dismiss one of his laborers. JOINTS PAIN YOU THIS MORNING?

First sign of RHEUMATISM. Dangerous to let it run. Easy to cure now. A single bottle of

Rheumacide

Will probably do the work. Bad cases require more. RHEUMACIDE cures by getting rid of the cause, so that no trace of the disease lingers in the system. It purifies the blood, relieves the inflammation of the kidneys, the chronic constipation and the catarrh that follows such a condition of the system.

Though Mrs. Mary E. Welborn, of High Point, N. C., is 80 years old and had suffered from rheumatism for 20 years, she was completely cured by RHEUMACIDE, and declares she feels "years younger" and is anxious for "all who are suffering from any of the forms of this dread disease" to try RHEUMACIDE and be cured.

REV. J. R. WHEELER, a noted Methodist minister, of Reisterstown, Md., writes enthusiastically of RHEUMACIDE, which cured him. He is 75 years old and has been in the ministry 50 years.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, June 22.—The cotton market opened firm at an advance of seven to thirteen points on better cables than expected. Following the call prices sold off a few points, but almost immediately rallied on continued covering and later scored a sharp advance as the upward trend of values uncovered heavy stop loss orders on the short side. New Orleans and the South generally was a seller in the local market early, but later joined in the buying movement, which became more or less general, although at a higher price. It looks as though certain Southern and Wall street houses were putting out fresh short lines and thus restricting to some extent the advancing tendency. As the session progressed there was more or less realizing by local longs and this in connection with the selling referred to caused some irregularity. At the best level of the day, which was in the afternoon, July which had sold at 10.44 during the early trading was advanced to 10.65, a net gain of twenty-eight points, while August seemed to be in particularly good demand from certain room traders and sold up to 10.62, a net advance of thirty-seven points. December and October at this time were about twenty-seven points net higher at 9.72 and 9.71 respectively. Toward the close room realizing eased the market off about five to six points from the best, but the final tone was steady at an advance of nineteen to twenty eight points. Sales were estimated at 350,000 bales. The advance was in the face of generally favorable weather news, the day's report indicating further rains in the sections where lack of moisture has been complained of.

KIDNEY DANGERS

Diseases of the Kidneys, Bladder and Urinary organs are on the increase to an alarming extent, and often a dangerous stage is reached before the victim is aware of his affliction. Immediate attention should be given to the first symptoms, no matter how slight they may appear. Pains in the back, Dizziness, Irregularities and change in color of urine, frequent desire to urinate, etc., are warnings of nature of a derangement of these important organs.

STUART'S GIN AND BUCHU is a tested remedy for these diseases, and has made some wonderful cures. It acts immediately, and its curative power is seen at once. It can be relied upon even in advanced dangerous stages of the disease.

SPIRITS TURPENTINE.

— As the result of carelessly handling a pistol, Fred Newbaum, of Stanly county, aged 18 years, shot and killed himself last Saturday.

— Captain Tamblyn, of England, has arrived at Salisbury to look after some mining property in which he is interested.

—The people of Oxford have voted in favor of bonds to be issued to supply the town with water works and electric lights, which will be furnished in the near future.

— Mr. Bennett Fields, one of Goldsboro's oldest and most highly esteemed citizens, died on Tuesday night. He was aged 79 years and was a Confederate veteran.

— There is a great scarcity of labor in North Carolina this year. Out of 290 correspondents of the Agricultual Department reporting on labor, only 40 say that there is a sufficiency.

— On Monday near Mt. Airy, Foy Clark, a desperate negro, shot and killed another negro, Jim Martin. The cause is not known. Clark escaped and has not been captured. Roby Moore, a white boy, and Martin's sister, witnesses to the shooting, were locked up.

— Charlotte Observer: The fact that the Southern Railway finds it necessary to put back on its line trains Nos. 29 an 30 between Washington and Charlotte shows the great increase in traffic between the North and South. The double-tracking of the Southern was not undertaken a bit ahead of its needs.

— Mr. William H. Sumner, of Salisbury, an employe of the Southern Railway, was run over at Old Fort, on the Asheville division, on Tuesday. Mr. Sumner, in attempting to get on an engine, fell and was caught by the wheels, which passed over his arm and part of the shoulder. He is in a serious condition.

— Charlotte Observer, June 22nd: We are publishing this morning an appeal for aid from Scotland county for the farmers whose crops were destroyed by the recent heavy hail storm in that county. The loss seems to be heavy indeed and it is hoped the people of North Carolina will see that ample relief is afforded the stricken people.

— Mr. John Lady, a well known farmer in Cabarrus county, shot a negro by the name of Will Raney on Saturday. The negro went to Mr. Lady's house to get some money due his wife for hoeing cotton. He claimed more than was due him, and became abusive. He was ordered off the premises but returned shortly afterwards. Mr. Lady says he got his gun to frighten the negro but it went off accidentally. The wound is not serious. Mr. Lady was arrested.

— Charlotte Chronicle: The fellow who sends the papers a fake report of a marriage as a joke on his friend—wish the lawyers at their present meeting would get up a law that would reach him. He is the most senseless of all jokers and one against whom newspaper publishers have no protection. If the lawyers would fix it some way so that we could send a few of them to the penitentiary for good long terms and we should die before they got out, we would go off happy.

— The Secretary of State, at Raleigh on Tuesday, authorized the Haviland-Warner Lumber Company, of Folkstone, Onslow county, to change its name to the Warner Lumber Company. Charters were granted to the Fidelity and Security Company, of Greensboro, with a very wide range of powers, the charter being what is known as a "blanket" one, capital stock $100,000; stockholders J. P. J. Battle, P. D. Gold, Jr., and Garland Daniels; and to the Delta Cotton Company, of Burlington, capital stock $12,000, to operate cotton warehouses, Jas. E. Holt and others stockholders.

— Safe crackers entered the front door of Geo. K. Pritchard's store Saturday night about 12 o'clock, June 18th, and blew open two safes in the rear end of the store. The burglars got about $700 in cash, and many valuable papers. County Treasurer S. J. Black had some county funds in one of the safes and he lost between $400 and $500. There is no clue to the robbers. It is supposed that the safes were blown open with nitro-glycerine. Both of the safes were blown into small pieces. Excitement runs high, and if these burglars had been caught at once there would doubtless have been a lynching.

— Congressman E. Y. Webb informs the Charlotte Observer that the work of surveying Mecklenburg county for a topographical map would be started within a few weeks. This survey will be made at the expense of the national and State governments, and will cost each $5,000—a total of $10,000. A topographical map is the perfection of map-making. The map of Mecklenburg will show the residence of every person in the county, every creek, branch and spring, and every road will have all distances exact. The map will be almost invaluable, not only to the 60,000 people living in Mecklenburg, but will be of a great deal of value in advertising the resources of the county and securing new citizens. A geological survey will be made in connection with the survey for the map, and it is possible that this may be worth many thousand dollars.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, of Benterville, Va., serves as example. He writes: "I had bronchitis for three years, and doctored all the time without being benefitted. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by R. R. BELLAMY, druggist. Trial bottles free; regular sizes 50c and $1.00.

Dr. PIERCE'S FAVORITE PRESCRIPTION FOR WEAK WOMEN.

— The electric current from the Buck Shoals power plant was turned into Mount Airy Monday and the streets were ablaze with arc lamps and numerous incandescent lights hung out for temporary illumination. This is the only town in the State deriving its power or lighting and water service from a water-power plant built, owned and operated by the municipality itself. The water-power plant is three miles distant on the river and is of 432 horse-power capacity. This power will be used in the daylight hours by the factories and at night for pumping water and lighting streets and residences. The lighting plant is modern and up to date in every detail; the waterworks, not yet wholly complete, will afford the best service in the South, having a million-gallon reservoir of mountain spring water stored upon the top of the nearby mountain.

Can anything be worse than to feel that every minute will be your last? Such was the experience Mrs. S. H. Newson, of Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters, and the result was miraculous. I improved at once, and now I'm completely recovered." For Liver, Kidneys, Stomach and Bowel troubles Electric Bitters is the only medicine. Only 50c. It's guaranteed by R. R. BELLAMY, druggist.

The Morning Star

WILMINGTON, N. C.

THURSDAY MORNING JUNE 23.

PERDICARIS AND VARLEY.

Bandit's Captives May be Released To-day—The U. S. Government Impatient at the Delay.

By Telegraph to the Morning Star.

TANGIER, June 22.—It is said on good authority that Messrs. Perdicaris and Varley will be released to-morrow, when the ransom, $70,000, partly in checks and partly in silver, will be sent to Raisuli. The amount of the ransom has been advanced to the Sultan by a firm here.

WASHINGTON, June 22.—A cablegram was received to-day by Secretary Hay through the Navy Department and Admiral Chadwick from Consul General Gummere, at Tangier, relative to the Perdicaris negotiations. This indicates that satisfactory progress is not being made, and it is intimated that the good faith of the Moorish government is being called into question by our negotiators. In response to their application for further instructions, Secretary Hay has told them that they must adhere strictly to their original instructions; that they must not in any way become involved in guarantees or otherwise with other nations, and that they must not land marines or sailors without specific instructions from Washington and finally that they must demand from the Moorish government either Perdicaris alive or Raisuli dead.

FOOD PRESERVATIVES.

The Use of Borax and Boric Acid Condemned by the Department of Agriculture—Result of Tests.

By Telegraph to the Morning Star.

WASHINGTON, June 22. — Results obtained from experiments made by the Department of Agriculture with a view to ascertaining the effects of boric acid and borax as preservatives, in the human system, are announced in a report by the department. The report embodies data obtained from the prolonged tests made with volunteer employes who constituted the so-called diet kitchen or "Poison Squad." The report announces that even in doses not exceeding a half gram (7½ grains) a day these preservatives are prejudicial to health when consumed for a long time.

There is but little apparent disturbance in the process of digestion or assimilation. The administration of the preservatives, the report says, tends to diminish slightly the weight of the body. The general conclusion is reached that it is not advisable to use borax in food articles intended for common and continuous use. At all events, adds the report, the quantity and character of the preservatives used should be plainly marked.

MANY APPLICATIONS

For Places Under the Panama Canal Commission—The Requirements.

By Telegraph to the Morning Star.

WASHINGTON, June 22.—D. I. Murphy, secretary of the isthmian canal commission, to-day gave out the following:

"Applications for places under the commission have been filed by the thousands and are still pouring in. It ought to be understood that no one not possessing special qualifications will be appointed, for the work of the commission will be largely of a technical character.

"Those applying for service on the isthmus, in addition to the possession of exceptional qualifications, must pass a rigid physical examination under the direction of the public health and marine hospital service, to test their fitness for service in the tropics."

"Probably not one in a hundred of those applying have even a remote chance of appointment."

GARMENT WORKERS.

General Strike in the Ready-Made Clothing Trade in New York City.

By Telegraph to the Morning Star.

NEW YORK, June 22.—The general strike in all branches of the ready-made clothing trade in this city, called by the Garment Workers' Trade Council, went into effect to day. The men claimed that more than 30,000 will have quit work before night, while members of the New York Clothing Manufacturers' Association, against whom the strike is directed, declared that most of their shops were running with both non-union men and union men who had either refused to go out or had not been affected by the strike order. The trade council agrees with the employes that the only point of difference is the "open shop" declaration promulgated by the labor bureau of the National Association.

FIRE AT PATERSON, N. J.

Lumber Mill and Other Property Burned. Loss $500,000.

By Telegraph to the Morning Star.

PATERSON, N. J., June 22.—A loss that is conservatively estimated at $500,000, was caused by a fire which started in the lumber plant of the P. S. Vankirk Company early to-day. Within five minutes after the flames were discovered they had spread throughout the entire plant of the lumber company. Simultaneously with the arrival of the firemen the coping of the roof of the I. A. Hall's big silk mill, on the opposite side of the street, caught fire and that structure was practically destroyed. Poor water service was accountable for the spread of the flames to the Hall mill. A number of firms were burned out.

TEXAS DEMOCRATS.

Delegation to St. Louis Instructed to Vote for Judge Parker.

By Telegraph to the Morning Star.

SAN ANTONIO, TEXAS, June 22.—The State Democratic Convention finished its business to-day. One of the strongest delegations ever elected in this State was chosen and instructed to vote Judge Parker and to vote as a unit on all questions. A feeling of party unanimity and earnestness ruled throughout.

The Democrats of Vermont at their State convention declined to instruct delegates to the national convention to vote for the nomination of Judge Parker for President, but just before adjournment, a motion was made giving expression to the opinion that Judge Parker was the most available candidate.

JAPS SURPRISE RUSSIAN COLUMN.

Russians Lost Heavily, Their Casualties Said to Have Numbered 1,200.

MOVEMENTS OF THE ARMIES.

A Serious Collision Regarded as Unlikely for Some Days—Russian Vessels Sunk in Port Arthur Harbor. Japanese Transports.

By Cable to the Morning Star.

LONDON, June 22.—A dispatch to the "Daily Mail," under date of June 21st from New Chwang, says:

While a Russian force of 8,000, under General Kondratavitch, was traversing Wafungko ravine, ninety-seven miles southeast of Kai Chou, June 19th, it was surprised by concealed Japanese artillery. The Russians lost heavily, their casualties being 1,200 in number. General Kondratsvitch extricated his men and led them in good order to another entrenched position.

Army Movements.

ST. PETERSBURG, June 22, 5:45 P. M. —The general staff received a dispatch from Liao Yang, dated to-day. It does not mention any serious fighting.

The Russian rear guard is now at Zeu Chen. Gen Kuroki's advance along the roads from Siu Yen, leading respectively to Hai Cheng, Ta Che-Chou and Kai Cou is being warmly contested by General Kuropatkin's outposts. The column leading to Kai-Chou is the furthest advanced, but is still thirty miles distant. A serious collision is regarded at the War Office as unlikely for some days. General Kuroki's movements betray a tendency to go south and join General Oku. General Kuroki's outposts are fortifying the pass between Saimiaza and Kwan Dian Sian.

VANTHALIN, via Liao Yang, June 21.—It is rumored that General Oku is following up his intention to join General Kuroki, who has moved out to meet him. Cossacks are watching the enemy's movements.

Russian Vessels Sunk.

TOKIO, June 22, 3 P. M.—The Japanese captured a junk leaving Port Arthur yesterday, and the Chinamen on board say that a few days ago two Russian torpedo boat destroyers and the steamer Shin Taiping struck mines at the entrance to the harbor and sank. One hundred and forty lives were lost, according to their account.

VLADIVOSTOK, June 22.—(Delayed in transmission.)—The report that foreign attaches were on board the Japanese transports which were sunk by the Vladivostok squadron in the straits of Corea is untrue. Three Englishmen, L. Anderson, J. D. Ring and W. Kerr, of the transport Sado, were brought here. They say that other Japanese transports are in many cases officered by Englishmen. The Sado lost $1,000,000 in English gold.

A Russian Expedition.

ST. PETERSBURG, June 22.—The Emperor has received the following from Vice Admiral Skridloff, dated June 21:

"A division of torpedo boats under the command of Capt. Venogradsky, aid-de-camp of the general admiral, which was sent out June 15th on an expedition along the coasts of Japan, returned to Vladivostok to day. The torpedo boats approached Port Tsushi near Hakodate, but a fog prevented their entrance. Several trahning and transport schooners were captured. One schooner was brought to Vladivostok. The majority of the schooners was conveying fish and rice to Sasebo and Shimonoseki."

Naval Plans.

ST. PETERSBURG, June 22.—It is not betraying Vice Admiral Skridloff's plans to say that important naval developments are imminent in the Far East.

The admiralty has no news of the reported loss of two Russian torpedo boat destroyers off Port Arthur. The latest dispatch from Rear Admiral Withoft, in command of the naval forces at Port Arthur, dated June 17, reports all well there.

Japanese Advancing.

KAI CHOU, Liao Tung Peninsula, June 22.—Japanese scouts have appeared two miles from Seu Chen (Siung Yi Shan). The main columns of the enemy are three miles in their rear. General Samsonoff, with the Russian rear guard, is falling back as the Japanese advance.

A number of men missing after the battle of Vafangow have rejoined their regiments. The Russian losses are expected to total 3,500. The troops are in excellent condition, in spite of the fearful weather. The roads are ankle deep in mire, but rains are now ceasing.

General Kuropatkin arrived here Monday, inspected Gen. Stakelberg's corps and addressed the troops, saying: "I shall see you soon again. We must settle with the Japanese promptly. Till then we are not going home." The men responded heartily. Siun Yi Shan is 35 miles southeast of Kai Chou.

Imminence of Battle.

ST. PETERSBURG, June 22.—The imminence of a battle in the northern part of the Liao Tung peninsula is admitted by the war office and is indicated succinctly in to-day's dispatches from the Associated Press correspondents at Liao Yang, Kia Ping and other points on the railroad.

The week of skirmishing around Siu Yen retarded General Kuroki's operations, permitting General Stakelberg to reach Kaiping, the rear guard slowly falling back on Senuchen before the Japanese advance.

Meanwhile large forces are hurrying south from Liao Yang to check both General Oku and General Kuroki.

It is believed here that General Kuropatkin's object is to prevent a juncture of the Japanese armies. On the other hand, the aim of the Japanese apparently is to drive the Russians out of the Liao Tung peninsula preparatory to a march on Liao Yang. The approach of the rainy season will more than likely precipitate matters.

Nothing is known officially of the reported occupation of Haiung Yai Cheng (Hsi-Ung-Yao Chonz or Si-Yung-Cheng?) by the Japanese. If the report should be correct, it agrees substantially with the Japanese plan of advance, as it is understood here, but it indicates that the Japanese outposts are further forward than Russian advices indicate.

TOKIO, June 22, 7 P. M.—A division of the army under General Oku occupied Hai Ung Yao yesterday without opposition.

Firing Near Port Arthur.

CHE FOO, June 22.—A steamer which passed within three miles of Liao Tie-Shan promontory reports that the big guns on Golden Hill were fired from five to six o'clock on Tuesday morning, and later the firing of machine guns back of Port Arthur was heard for many hours.

The governors of the New York Stock Exchange have decided to close the Exchange on July 2d, the Saturday before the Fourth.

THE LOSS OF LIFE BY THE SLOCUM DISASTER.

List of Known Dead Yesterday Morning Exceeded 850 and More Bodies Since Taken from Water—Inquest.

By Telegraph to the Morning Star.

NEW YORK June 22.—A determined effort to ascertain as nearly as possible the number of persons who took passage on the excursion steamer General Slocum when she started on her ill fated trip up the sound one week ago to-day, has been begun under the direction of the police department. One hundred patrolmen, specially selected from the various precincts, have been detailed to visit the home of every person whose name has in any way been mentioned in connection with the disaster. These officers will make up a list of names of all persons who went on the excursion from their several districts, with their individual fates. From these lists a final report, embodying all the names, will be prepared.

The list of known dead, which had reached 846 up to 2 o'clock this morning, has steadily increased since that hour. Before daylight twelve more bodies had been taken from the river and nearly every succeeding hour added to the total.

Coroner's Inquest.

William W. Trembley, a deck hand on the Slocum, testified at the inquest to-day that no water was turned on the flames, that the fire hose did not burst, that the assistant engineer was not in the engine room during the fire on the Slocum, and that he saw holes in several of twenty life preservers which he threw to passengers struggling in the water.

Rev. George Schultz, pastor of St. Luke's Lutheran church, of Erie, Pa., who was on the Slocum, said he took a life-preserver before jumping from the steamer, but when he held it the weight of the preserver broke the strap and he threw it away. During all the trouble he saw only one member of the crew and he was in the act of jumping overboard. The Knickerbocker Steamboat Company conceded that since 1895 no new life-preservers were purchased for the General Slocum. Counsel for the company explained that they made the concession because they were unable to prove to the contrary. Considerable evidence was heard as to the life-preservers.

Maria B. Ehrengs, who was taken from the steamer rail by a boat, said that one of her daughters who was rescued had on a life-preserver when she was taken from the water.

The inquest was then adjourned for the day.

In identifying the body of his 7-year old daughter, Elsie, who lost her life in the General Slocum disaster, John Kircher, of Green Point, Long Island, to-day told the officials at the morgue that her drowning was due, he believed, to a life preserver that was worse than useless.

In support of his assertion Kircher said that his wife who with their three children were on the Slocum, put a life-preserver on Elsie and dropped her overboard, thinking she would be perfectly safe with the preserver on. She waited for the child to come up but the little one never appeared. The wife and other two children jumped overboard and assisted by the mother, who could swim, all got ashore in safety.

TORPEDO BOAT ADDER.

Thorough Test of the Submarine Craft to be Made in Chesapeake Bay

By Telegraph to the Morning Star.

NORFOLK, VA., June 22.—The submarine torpedo boat Adder, accompanied by the gunboat Siren as tender, sailed this morning from the naval torpedo station at this yard for the Middle Ground, in Chesapeake Bay, where the cigar-shaped craft will have a thorough test under the supervision of Lieut. Frank L. Pinney, who accompanied the submarines Adder and Moccasin down the coast about six months ago and who has been in charge of the vessels while here.

In the series of trial tests which will last for two days, the Adder will be subjected to the tests of running on the surface, running partly submerged, of sinking and rising to the surface, and of the firing of a dummy torpedo.

REPUBLICANS ADOPT THEIR PLATFORM.

Leading Feature at Yesterday's Session of the Chicago National Convention.

SPEAKER CANNON CHAIRMAN.

One of the Platform Planks Demands Reduction of Representation of Certain Southern States in Electoral College and in Congress.

By Telegraph to the Morning Star.

CHICAGO, June 22.—Because Speaker Joseph G. Cannon was the central figure in the proceedings of the Republican national convention to-day, members took on a picturesqueness and demonstrativeness which yesterday was looked for in vain. From the moment he was escorted to the platform to wield the gavel as the permanent chairman, the entire atmosphere of the convention was changed. The enthusiasm which had lain dormant burst and the applause was thorough and hearty. He made a speech and the audience cheered whether he spoke jocularly or in a serious vein. He was the entertainer—in fact he was the convention.

From the standpoint of political interest, the adoption of the party platform was the event of the day. It contained declarations of party policy for the coming campaign. But the permanent chairman's personality almost overshadowed the platform.

The second day of the convention might have been the close had it been the desire of the assembled delegates. Early in the day a movement was inaugurated to proceed with the nominations, but the original programme as prepared to extend over three days prevailed, and the standard bearers for the 1904 Republican campaign will be named formally to-morrow.

Live party enthusiasm aroused by the hearty reception given "Uncle Joe" Cannon, as he is known from coast to coast, spread even to routine business and culminated in a contest over the number of delegates to which Hawaii was entitled. The conflict was the first and will doubtless be the last on the floor of the convention.

One of the remarkable features concerning the adoption of the platform was the fact that it has been the subject of administrative scrutiny and national interest for many weeks and it was accepted without a dissenting voice.

In addition to the tariff plank and other resolutions which always have had a prominent position in Republican platforms, there were incorporated several clauses of striking interest. One of these is a plank looking to a reduction of the representation of certain Southern States in the electoral college and in Congress. It is built upon what is known as the Payne resolution, offered eight years ago, and the Quay resolution of four years ago, but goes further than either. The plank directs an investigation to ascertain whether there have been unconstitutional disfranchisements of voters in any State and if so demands a reduction of the representation of such States in Congress, with the consequent reduction in the electoral college and in national conventions.

The full significance of pledges for the continuance of the provisions of the Chinese exclusion act and for the further announcement of all legitimate efforts to obtain for American citizens abroad without discrimination the rights of sojourn and travel, was not appreciated when read to the convention.

Speaker Cannon's oratory was decidedly to the liking of the convention. He established cordial relations even before he had uttered a word.

He stood in silence for a moment on a tongue-like projection in the centre of the platform. His face fascinated. It expressed abundant humor, strangely blended with virile pugnacity. He was pausing to think how to begin. His thoughts were pictured on his face. They were pleasant; they were inspiring. Instinctively he drew himself up and characteristically raised his hand for a gesture even before he spoke. Then came a delightfully refreshing and humorously frank avowal. Each of the thousands of listeners received a confidential tip. The speaker had written his first speech and had tried to memorize it. But he did not have the slightest intention of following it. He knew the inspiration that would come—that had come—and he just wanted a free hand to cut loose.

"So let us ramble a while." That is what he said. And then he abandoned himself to his limitless store of profound political sagacity and his original and characteristic vocabulary. Thoughout his address the cheering was generous, intelligent and appreciative.

The Vice Presidency.

Entries in the vice presidential race are being scratched with great rapidity since the withdrawal of Representative Hitt was announced to-day. Colorado, Nebraska, Wisconsin, and Missouri have all practically decided not to place their favorite sons in nomination. Positive announcements to this effect, however, have not been made. The course pursued when the roll of the States is being called for nominations will govern. The Missouri delegation to night seems least inclined to abandon their intention to place Mr. Walbridge in nomination. A meeting of the delegation was called for the purpose of caucusing on the question. It was postponed until tomorrow morning and the opinion expressed that no other nomination than Senator Fairbanks would be made. The Wisconsin delegation has come to the same conclusion without a meeting, regarding presenting the name of Governor Schofield. However, if Colorado should set the pace by making it a free-for-all event, each State will bring forth its aspirant without hesitation.

A Mass Meeting.

To further stimulate enthusiasm, a political mass meeting was held in the Auditorium to-night, which was addressed by Senator Depew and other well known Republican orators, who sounded the keynote of the coming campaign and drove home what they regarded the strong planks in the platform adopted to-day. Long before the meeting began the theatre was surrounded by tremendous crowds waiting for admission, and before the first speech was concluded a cordon of policemen surrounded the theatre to prevent any one else forcing an entrance.

Senator Lodge moved the adoption of the platform at the conclusion of the reading. Chairman Cannon put the question and after a rousing vote in the affirmative declared the report unanimously adopted.

The convention at 3:50, on motion of Senator Kean, of New Jersey, adjourned until 10 o'clock to morrow.

Congressman E. Y. Webb was yesterday renominated by acclamation by the Democrats of the Ninth N. C. district in convention at Gastonia.

SIGNS ARE OLD.

In Ancient Greece They Were Used on Business Houses.

The custom of marking a business house by means of a sign is of very ancient origin. In the great cities of the east and among the ancient Egyptians such a practice must have been unnecessary, as all trades were classified and confined to certain sections of the city, and then all wares were exposed to full view, as they were displayed in open booths.

The history of Grecian signboards is meager, yet the allusions of Aristophanes and Lucian to signboards warrant our belief in their use by the Greeks. Athenæus tells us, "He hung the well known sign in front of his house."

Advancing to Roman times, there is abundant evidence of signs, as the discoveries of Pompeii and Heraculaneum amply testify. In the Eternal City some of the streets derived their names from signs, just as hundreds of London streets have been so named. The Roman street Vicus Ursi Pileati was named from the sign, for, as the name indicates, it was the street of "The Bear With the Hat On." But it was not until late in the fifteenth century that the custom gained a footing in England, first of all among the taverns and alehouses. Later came the necessity of distinguishing between certain shops brought about by the fact that the houses were not numbered and the people could not read word signs.—Julian King Calford in St. Nicholas.

Skee Jumping.

The great event of the skeeing clubs of the western states is the jumping contest. Only a skee runner knows the sensation. Below, the endless hill seems to stretch on forever into the expanse of the valley, the steepness of the incline lost in its whiteness. A long breath and you start. Faster and faster you go, till suddenly a flash of green in front, and the jump off is coming. Crouching until your knees almost touch your skees, with muscles strained, out into the air you sail!

A strange lightness and feebleness take possession of your limbs, and your spirit shares the intoxication of soaring into space. After long seconds you are called back to earth, first for half a second softly, but then hard as iron that seems to give you an electric shock. You wabble helplessly from right to left; each foot seems glued to the ground and still in the air, but you have kept your balance and are shooting forward. At last you catch your first breath, like a hiccough; then a longer one. You are master of the field, with a jump of a hundred feet or more, and finish the victorious course in a neatly rounded curve.—Country Life In America.

Caught With the Goods On.

"Silas wuz down to the city an' had to send for money."

"Get bunkoed?"

"Nope. He pasted his money to the inside of the bosom of his shirt, and when he went to come home the landlord wouldn't change his shirt."—Exchange.

Explained.

Baxter—Funny, isn't it? Where we say a man puts his foot in his mouth, the French say he puts his foot in his nose.

Foster—Of course. That's all owing to the nasal sound in so many of the French words.—Boston Transcript.

A Hint Desirable.

"You're all run down," said the doctor. "What you need are quiet and rest. You ought not to be worried at all."

"Will you put that in the form of a prescription, doctor, and give it to my wife?" asked the man.—Exchange.

Success is nothing more than the result of doing whatever you can do not only well, but just a little better than anybody else.—Maxwell's Talisman.

The International Mercantile Marine Company, in New York, announces that it has met the cut steerage rate of $15 to London and $17 to Antwerp, put into effect by the Cunard line.
